ORACLE®

THE WORLD'S #1 DATABASE TAILORED TO MEET YOUR NEEDS

Whether you're a lone developer, small and midsize business, or large corporate enterprise, there's an edition of the world's #1 database tailored to meet your business and technical requirements.

Oracle Database 11g is available in a choice of editions:

Standard Edition One, Standard Edition, and Enterprise Edition. All editions are built using the same common code base, which means your database applications can easily scale from small, single processor servers to clusters of multi-processor servers without changing a line of code.

Additional options for enhanced performance, scalability, availability, security and manageability are available with Oracle Database 11g Enterprise Edition.

Oracle Database 11g, building on Oracle's unique ability to deliver Grid Computing, gives Oracle customers the agility to respond faster to changing business conditions, gain competitive advantage through technology innovation, and reduce costs.

With Oracle Database 11g you can:

- » Adopt new technology faster with Real Application Testing
- » Manage more data for less with advanced compression and partitioning
- » Simplify systems by storing all your data in the Oracle Database with Oracle SecureFiles
- » Maximise the ROI of disaster recovery resources with Oracle Active Data Guard
- » Free critical personnel for strategic tasks with management automation
- » And much, much more...
